No single exhibitor has ever taken more pains to con tribute to the real excellence of the fair than did Mr. Richardson in his exhibit of 18 pair of oxen and steers, and he is erfully awarded the full measure credit due him for his enterprise by his competitors in that line, as well as by the managers of the fair, and by the public, who admired his handsome contribution.

An audience of good size listened with close attention on Monday evening to the lecture of Rev. J. J. Lewis on the Passion Play at Oberammergau, and watched with absorbing interest the succession of beautiful views which depicted with life-like realism the leading feature of the great dramat, and the grand natural scenery amidst which it is given. One of the most charming parts of the lecture was that describing the oute to the little mountain village of Oberammergau, and giving in concise form the of the play which has grown to be looked forward to as an event of world-wide nterest on its presentation once in each ten years. In the village of Oberammer-gau there were shown the parish church nd church-yard, the houses where the leading actors live, the street scenes, and the open-air stage and place of the great presentation. In the play itself there were shown the various leading groups and tableaux, the chorus, and portraits of the leading actors, nearly all of whom show faces of marked spirituality, emphasizing the thought constantly urged by the speaker that the Passion Play is no ordinary drama, but a great religious service entered upon by the villagers with the most reverent and devout religious feeling.

The death of Mrs. Sarah A. Hutchins, mother of Mrs. C. C. Tyler, took place last Sunday morning at the home of her daughter and son-in-law. The cause of death was a persistent rheumatic affection which of late had grown to be more and more serious. Mrs. Hutchins had been twice married, her first husband being Obed Slate. Esq., of Hinsdale, a man of much promi nence in the affairs of that town and of Cheshire county, until his death some 20 years ago. By him she had four children, Chas. E. Slate of Winchester, N. H., Mrs. B, Ross of Millers Falls, Mass., Dr. Geo. M. Slate, a practicing physician at Sidney, New South Wales, and Mrs. C. C. Until the death of her second husband, Mr. Elisha Hutchins, which took place about six years ago, Mrs. Hutchins resided in Hinsdale and Winchester. Since that time she has lived with her daughter, Mrs. Tyler. She was a woman held in high esteem in Hinsdale and by those who had formed her acquaintance during her residence of three years in Brattleboro. Her funeral was held Tuesday afternoon at her son-in-law's residence, and was attended by Rev. Mr. Phalen. The burial was at Hinsdale. Among those present was the wife of Dr. Slate, from Australia, who is on a visit to this country, and who paid a visit to her mother-in-law here a short time before her death.

A company of about 50 relatives and intimate friends were in attendance. The house was tastefully decorated for the easion, the stair rail being covered with laurel, the doors with smilax, and the bay window banked with dahlias, in front of which, and beneath an arch from which a horseshoe of white flowers was suspended the ceremony was performed by Rev. C. O. Day. The bride's sister, Mrs. Albert Pullen, was bridemaid, and Mr. Pullen best man. The bridal party was ushered into the room by little Pauline Miller, who carried flowers. The bride's dress was of brown silk and she carried a bouquet of roses. A reception was held immediately after the ceremony and Mr. and Mrs. Ward took the 2:28 train south for Westfield, Mass., where they are to live. Mr. Ward has recently bought the interest of Pullen Brothers in the Hodgkins & Pullen grocery store in Westfield, and the new firm will be known as Hodgkins & Ward, Mr. Ward's partner being Clarence Hodgkins, formerly of Brattleboro. Guests were present at the wedding from Greenfield, Westfield and other places. Mr. and Mrs. Ward were the recipients of a large variety of handsome

SHALL BRATTLEBORO HAVE A

Rev. Mr. Day's sermon at the Congregational church last Sunday evening was on "What the social life of Brattleboro ought to be. The text was from John XI, 56: "What think ye that he will not come to the feast?" The central thought of the descourse was that the control of all social life must be by the spirit of the Son of Man. The word social is used, not in the narrow sense, as affecting labor problems, the reorganization of the state, etc. out in the simpler sense of its Latin de rivation as that side of life where we seek leasure, benefit and growth in companies, ircles, clubs, festivals and the like, it which personalities, taste and uncompelled cupations are involved. First, the possibility of the social life in common was defended, both historically, looking back to the Brook farm and like experiments of cars ago, and also intrinsically, as involv ed in a statement of principles for its development. The two main aspects of the subject, the inner circles and the general spirit, were taken up. The inner circles, as distinct from narrow cilques by the esential thought of a true friendship, were first insisted on as necessary to the general well-being. On the other side the true social spirit of a community was described by its necessary elements. First, a sword lge against every approach of immorality next, high thinking and high feeling, and organized, together with strict censorshi of popular amusements. Third, a spirit of benevolence, and on this line an argumen was made in behalf of a public hospital for Brattleboro. It was urged that there are

people enough in the town and county who need the benefits of such an institution, while none is near. Various cases were cited in which the need of hospital treatment is almost imperative, such as railroad

### A PLEA FOR THE HORSES. In this pretty town of Brattleboro, so

well governed, so tidy, so prosperous, and in every way such a charming place to live in, it seems strange to be obliged to write upon such a subject as cruelty to animals, still it is often the case that from the hab it of years a thing which is in itself crite goes on without the seeming knowledge of the inhabitants. The accident which took place on a recent Saturday has led me to put in writing my views upon the subject and I do it in the full conviction that it is the result of carclessness instead of any desire to hurt. I am told that this accident was due entirely to the fact that the horse was left exposed to the unmerciful, torturing fly. This is happening each day upon the main street. I have repeatedly, during my stay of two months, seen a horse tied in front of a store for half a day, and in four instances for more than eight hoors. On Sunday mornings it is a comchurch time on the block between High and Elliot streets, many of them in the sun and unblanketed. I have counted a dozen: last Sunday there were nine, four of which were not blanketed; six were tied in the sun. A few Sundays ago two women tied a horse before one of the stores at 10 A. M. unblanketed, in the sun; the poor dumb beast fretted and pawed there until ? o'clock P. M. Why are not these people compelled to take their horses to the various stables provided for the purpose, where I am told they are placed under shelter for the small sum of 10 cents? Would it not be well for the town authorities to take some action upon this matter, limiting the time and insisting, by means of a fine, upon proper protection for the poor beast from the sun, flies and cold?

I understand that at one time the town society for the prevention of cruelty to an ials did a good work in this direction.

Where are they now? Before closing I must enter a protest gainst the check rein. In the use old-fashioned relic Brattleboro is far behind the age. It has been judged unnec essary and cruel in England and abolished In New York it is very seldom ed and in most of our cities it has be come a thing of the past. Without it a properly broken horse has freedom of action which is of great use to the driver. The Kimball Jackson check, largely in use in Brattleboro, has long been considered the most cruel of any.

As a rule the horses in this town are well fed and well groomed; then why spoil the good by cruelty. While trying to live as Christians is it not our duty kind as possible to the dumb brutes which day such an important part in the comfort, to say nothing of the utility, in our E. E. WILLIAMSON.

### Oct. 1, 1891. THE FORTNIGHTLY CLUB

The Fortnightly club held its first meeting of the season with Rev. C. O. Day at the Congregational parsonage on Tuesday evening. The plan for the winter is to cessive evenings, having ten-minute papers read on the different phases of their life and character-historical, political, social, religious, etc. On Tuesday evening the aper was read by Mr. Day on "Getting there," the description being that of th cean voyage, the steamship, and the things seen and done while en route to London. At the next meeting a visit will be paid to the great English metropolis.

A simpler organization of the club was

determined upon, all young people in the Congregational society to be regarded as members without formal election or enrolment, or the payment of a fee. The officers are to consist hereafter simply of a resident, a secretary and treasurer, and three other persons, who together form a committee of arrangements of five. The officers elected were: President, C. Day; secretary and treasurer, C. H. Thompson, and G. I. Dunham, Miss Emma Houghton and Miss Gertrude Cowlrey are the other members of the com-

THE SPACIOUS AND LUXURIOUS HOME

The Hartford Courant of Sept. 28 gives an account of the luxurious new home near Albany, N. Y., to which Mrs. Henry P. Duclos, a well-remembered Brattleborn girl, is soon to remove, and of the large amily of pets to whose shelter and comfort the elegant quarters are to be devoted Her new place is known as Brightwood. and is situated in Valencia. It was built by a millionaire who spent money upon is without stint, the music room alone hav ing been fitted up at a cost of more than Financial reverses overtook the owner and he was obliged to retire to a more modest house. Recently an exhange was made by Mrs. Duclos, with the can into whose hands it fell, for her honn Hartford, and her property in Newing-Conn. Two weeks ago the transfer of her famous colony of pets was begun These include a family of 15 or more Mex can dogs, the progeny of a pair of those animals bought by Mr. Duclos on a pleasure trip to that country. There is also a magnificent mastiff, a handsome Irish ser ter, several birds, cats without number, and some fine-blooded Jersey cows. The Courant says: "Mrs. Duclos obtained possession some days ago of the New York state property, and for a week past her five stock belongings have been in the various stages of transfer to their new home

"Some idea of the lady's love for her pets may be learned from the royal manher in which they are to be treated in the American palace which is to be her and The cozy little house former ly occupied by the gardener has been as-signed to cats, and upon their arrival they were ushered in there and left for the night, the kind-hearted lady paying them a visit in the early morning. It goes without saying that upon her first visit she found them almost anything but satisfied but Mrs. Duclos's presence soon quietes them, and they were quite at home by the next day. They are not to be allowed at large for a month, in which time they are expected to become attached to their new quarters. It might be thought by some that the dogs would find comfortable quar-ters in the barn, but not so. The billiant room, fitted up as it is in a princely way. to be their home. The bird pets are only four in number, and they have hitherto occupied a comfortable cage built for them at no inconsiderable cost. In the new home they will be assigned to a room that the millionaire builder designed for his guests—and the reader need not bother his imagination as to whether this is a

well-appointed room. 'In a couple of weeks at least all these pets, the 19 cats, the 17 dogs, the four can-ary birds, the beautiful Jerseys, and other farm stock, and the handsome coach team, will be occupying quarters in their new home, where they will pass the remainder of their lives, with the assurance that when that is spent they will be buried with a degree of elegance befitting their lives, and, if it be that the great-hearted mistress survives them, their graves will be kept fresh with fragrant flowers, as have been the graves of pets already buried.

"Mrs. Duclos's early life was somewhat romantic. She was the daughter of Parker B. Francis, well-known for his connec tion with the famous water cures at Brat-tleboro, Vt. Before the war these establishments were a rendezvous for Southern people, many of them spending their sur mers there. The war of course shut out all this patronage and in the end the thriving institutions went the way of many another business venture, the large buildings having since been converted into tenement

"It was while her father was the successful head of the Brattleboro establish ments that Mrs. Duclos, then Mary Francis, met Henry P. Duclos, a wide-awake young man a few years her senior. While she was yet in her fifteenth year the two were married. Life had been somewhat easy with him, owing to the indulgence of a fairly well-off father, and he did not immediately tie up to any successful business.

Later he conceived the system of insur ance now so successfully practiced by the Life and Annuity company of this city, into whose then sluggish veins he infused new life, improving his own fortune the while, in the end receiving a handso royalty from that company for a period of years not yet expired. "Mr. Duclos died about five years ago,

leaving a comfortable estate to his wife Only one child was born to them during their twenty or more years of wedded life. and it died at 18 months of age. Since her husband's death she has given much of per time to her pets, her fondness for them having strengthened with her years of wid-'Mrs. Duclos does not believe in destroy-

ing animal life. No animal born on the place is killed, not even a bullock. For a dozen or more years she has abstained en tirely from eating meat of any kind.
"Although Mrs. Duclos has lived

somewhat retired life for some years past she has a large circle of friends hereabouts who will wish her well in her new home Many Hartford people, beside her personal friends, know her by sight, having seen her riding behind her favorite span blacks, usually accompanied by Miss Phila Miller, a schoolmate, who has been for years her constant companion. Her hand-some team will be missed from the streets. and it goes without saying that Hartford merchants will miss her very liberal patronage in all the departments that go to make up a well-appointed household.
"Mrs. Duclos has built a beautiful mau-

soleum for the remains of her husband and infant daughter, and it is among the most admired of the pieces in Cedar Hill. It is situated on the highest point in the southwest section of the cemetery.'
